

# COVID-19 VIRUS CLEANSING & SAFETY MEASURES

## Electrostatic Biocide Sprayer

Electrically charged sprayer sprays N-List Disinfectant on all surfaces 4x faster than traditional cleaning.

## Only N-List Disinfectants Used

These are EPA-approved products that are proven to kill Coronavirus. All areas wiped daily and more often if outbreak occurs.

## Specific Discipline Sanitation Protocols

### EVERY DAY – Every shift

- *Housekeeping and Laundry: N-list products and multi-step precautions*
- *Life Enrichment: disinfectant before and after programs*
- *Dining: EPA-approved disinfectant before and after every meal*

### EVERY DAY – Each team member, resident & visitor

*Temperatures, exposure questionnaire, proper mask wearing, hand hygiene*

## Stringent Daily Virus Screenings

## PPE Worn & Always Available

- *All team members – always*
- *Residents when outside their homes*
- *Full PPE droplet prevention protocols used when virus is present: goggles, gowns, gloves, mask*
